APICULTURE CLUB

APICULTURE CLUB

- Our school has a monastery in a mountain near the school and we have a lesson for secondary school students once a week.
- We believe that it is an important experience in their lives.
- Our aim is to teach knowing students's worth about animals and our natural resources.

STITCHING CLUB

STITCHING CLUB

- Both academic year and summer school term, the stitching club is always open and especially in lunch break time our teacher can allow students to use sewing machines.
- In our opinion, each child should be on his / her's own during the life and they don't need to anybody to do basic things.

AGRICULTURE

AGRICULTURE

- Both academic year and summer school term, the agriculture club is always open, our agriculture teacher and our principal decide to which production is suitable for our ground and climate then the lesson's plan is going to be ready.
- In 2018-2019, our students reaped their productions from our fields and sold all of them in the bazaar. After they had earned the money, they donated the whole money to public schools for painting their schools and repairing the school's objects.
